Objective

o Start a career as a Junior React developer
o For five years, I have been striving to develop my skills at least to the level of a Senior Developer and to develop my skills in other areas of development

Summary

o I started my training in January 2021 with the book Head first html and css, video courses on https://itgid.info and YouTube (1.5 months)
o Then I went on to study JavaScript in various video courses on YouTube, websites learn.javascript.ru and developer.mozilla.org (2.5 months)
o Participated in the Orangesoft Internship, but it was not possible to finish the internship, because he did not have sufficient knowledge of React/Redux at that time
o Then began to improve the React/Redux skills by reading the documentation on reactjs.org and taking a video course on the channel "it-kamasutra" The Way of the Samurai
o At the moment I have studied React/Redux and am improving my already acquired knowledge

Skills

o HTML, CSS, JAVASCRIPT, REACT/REDUX, NODE JS, EXPRESS, MONGODB, NPM, YARN

Experience
